NANAIMO NEWS.

A Large Pay Roll—District Orange Lodge—Hospital Election.

NANAIMO, July 17.—It is very gratifying to learn that the pay of the new Vancouver Coal Company has reached the enormous figures of $116,808, being the highest figures yet attained in the history of coal mining in British Columbia. The payment of such a large sum by this company means that the growth and progress of the city is assured, and of late the inhabitants of other cities are beginning to take notice of Nanaimo. Occasionally when visitors have been informed of the amount of money paid out here monthly they have been astounded.

A GRAND SUCCESS.

The raspberry and cream festival given by the ladies of St. Alban's church on the "Green" last evening was pronounced to be a grand success. Everything was carried out in good order, even the little flower girls contributing a fair share towards the financial success of the undertaking. The ladies were assiduous in their task of supplying the demand made upon their various tables, and it required no end of tact to make the raspberries pan out. The Nanaimo Silver Cornet Band was in attendance during the evening, and the spirited music rendered was sufficient to attract large crowds from the city, who tripped it out in spite of the excessive heat. A happier time could not have been spent than that enjoyed last evening. The ladies deserve great praise for the manner in which everything passed off.

HOSPITAL ELECTION.

At the annual hospital meeting held at the Old Flag on Wednesday evening the following gentlemen were elected for the ensuing year: John Pawson, president; Alex. Meyer, vice-president; Donald Smith, secretary; W. E. Webb, treasurer; Directors—J. Abram, Mayor Hilbert, A. Haslam, M. Wolfe and W. H. S. Perkins.

A DISTRICT ORANGE LODGE.

On Monday last while the sports were in full swing the three L.O.L. of Vancouver Island, viz., Victoria, Saanich and Nanaimo, assembled in the lodge room and organized a district lodge for Vancouver Island. The election took place as follows:—D. M., J. Walsh, Victoria No. 1342; D.D.M., D. McKelgan, No. 1516; D.S., Henry Brethour, No. 6697; D.F.S., Kenneth McInnis, No. 1576; D.T., Julius Brethour, No. 1597; D.D. of C., A. G. McIntosh, No. 1576; D.L., Isaac Walsh, No. 1439.

The next meeting will be held at Victoria, June 2, 1892.

The Whiskey Men Want Help.

LOUISVILLE, Ky., July 17.—The whiskey men of this state are much troubled over the condition of the liquor market. For two years there has been an excessive production of Kentucky bourbon, and dealers now estimate that there is a surplus of forty million gallons on hand. It is probable Congress will be asked to relieve the market by extending the three years bonded period now allowed for the payment of taxes on liquor. It will take about $18,000,000 to pay the taxes this fall. Unless this is done the California grape brandy distillers, it is said, will unite in a memorial to Congress asking this relief.

TREASURER M'GREEVY.

MURPHY'S EVIDENCE ENDORSED BY VALIN OF QUEBEC.

The Quebec Harbor Commissioners were to Do as McGreevey Ordered or be Dismissed—Ministers Were Always Wanting Cash—Connolly was to be Helped.

Special to the TIMES.]

OTTAWA, July 17.—A number of additional subpœnas have been issued for clerks in the Interior Department, charged with malfeasance, and it looks as if, before all is over, few will be left to do work. The committee meets again on Tuesday.

At the Tarte investigation committee to-day, Valin, one of the Quebec Harbor Commissioners, was further examined and strongly endorsed Murphy's evidence. He said Sir Hector told him that if the commission did not do what McGreevy told them, he would dismiss the commission. Valin always did as McGreevy directed, as he (McGreevy) was Sir Hector's representative. In 1889 when he (Valin) was running for the Commons in Montmorenci, he went to see Sir Hector about money and the latter told him to go McGreevy, who was the treasurer of all the funds. McGreevy complained to him that ministers were always wanting cash. The members of the commission were told by Sir Hector to help the Connolly's as they were good fellows. They did so. Valin said he was offered a senatorship by Sir Adolphe Caron in Sir Hector's presence, if he would not run in Montmorenci in 1890. He did not run. The promise was an official one, and he yet expects it to be fulfilled. He was elected for Montmorenci in 1882 and was defeated by one vote in 1887. The committee sat all day.

Mr. Verret, who was secretary of the Quebec Harbor Commission when the Connolly firm had the works in hand, was examined by the Privileges Committee yesterday. He made a statement to the effect that Owen E. Murphy took back the firm's bank deposit receipt, which had been deposited as security with the commission, and had substituted his own uncertified cheque. This change, Mr. Verret said, was allowed because of a letter written by Thos. McGreevy stating that he saw "no objection" to Murphy's cheque being taken. When McGreevy's letter was handed to Verret for identification he found to his astonishment that the word "no" was absent, yet he thought the letter was the one which he received. There was no trace of the word having been erased. The question is whether the witness had misread the letter when he received it, or a new letter has been substituted for the old one.

Mr. Pereira, assistant secretary of the Department of the Interior, admitted that he had received money in his wife's name. When he found the matter was talked about in the department he assumed a fictitious name, Ellen Berry. He endorses the cheques in his name himself. As the result of Pereira's admission, he has been suspended from the service.

Mr. Senecal, Superintendent of the Government Printing Bureau, has been off duty for a few days, and rumors were afloat that his accounts were in bad shape. It was stated by some, in fact, that he had absconded. Yesterday Mr. Laurier referred to these rumors in the House, when Sir John Thompson replied that Senecal was absent on sick leave.

U. S. Pension Cases.

CHICAGO, July 17.—Pension Commissioner Raum, in an interview to-day said: "Affairs have been going altogether too slowly in the pension department and I am going to hurry through and dump 350 original cases on the various pension agencies of the country before the year is out. There is no sense in letting these cases hang on, and I see no reason why, with the big force of clerks at my command, I should not dispose of these cases at once. Then, when they are disposed of, I can get rid of a lot of those clerks I have there. Perhaps we can do the work with half the force after we dispose of the original cases. Gen. Raum was quite enthusiastic over the new scheme and said he had already given orders in accordance with his plan.

A New Railroad Scheme.

CINCINNATI, Ohio, July 16.—It is assured to-day that C. S. Bryce and Samuel Thomas are at the head of a syndicate whose object is to parallel the Lake Shore Railway system from Toledo in as near a bee line as possible. The route has already been surveyed as far as Goshen, Ind., and engineers will resume work in a few days and continue the line to Chicago via Laporte, Indiana.

Sir John and the C.P.R.

NEW YORK, July 17.—A special to the Press from Ottawa says: A sensation has been caused by the discovery that Sir John Macdonald, in his will, bequeathed capital stock in the Canadian Pacific Railway to his wife. The fact that the head of the government which gave the company about a hundred million of dollars of public money had a block of its stock in the name of a New York broker naturally causes surprise.

Withdrawing from the K. of L.

HORRIBLY MANGLED.

A Man Caught in a Belt, and Has Every Bone in His Body Broken.

Special to the TIMES.]

NEW WESTMINSTER, July 17.—Yesterday afternoon Walter Moore, employed at Morton's sawmill, clover Valley, was killed while shifting a belt from one drum to the other. His hand was caught, and he was dragged in and whirled round and round repeatedly. He was all smashed to pieces, his legs, arms and ribs being broken and head battered considerably. He died while in the belt. He was about 35 years old, unmarried, and has relatives living in Vancouver. Coroner Pittendrigh went over this morning to hold the inquest. The verdict was accidental death caused by a moment's carelessness on the part of deceased.

A small blaze at the electric light power house this morning, seemed the work of spontaneous combustion, caused by the action of the hot sun on a pile of oil rags and chips. The fire department was on the scene in three minutes and soon had the blaze drowned out.

TWO YOUNG LADIES DROWNED.

Their Companion Leaves Them to Their Fate and Saves Himself.

PITTSBURG, Pa., July 17.—Many sensational rumors were afloat this morning concerning a drowning accident last night in the Susquehanna river, by which two sisters Kate and Mary McGowan, lost their lives, while their companion, Walter Lane was saved. The circumstances of the accident and the stories in circulation concerning the peculiar relations of the parties throw the gravest suspicions around young Lane. The authorities this morning began an investigation which resulted in his arrest. Those who claim to know the particulars of the drowning, and the incidents leading thereto say that sensational developments may be expected. The girls ages ranged between 18 and 20 while Lane is but 17. His account of the accident is that the boat suddenly began to fill and sank before they were able to row ashore. He says he valiant tried to save one of the girls, but was unable to, and barely managed to swim ashore. The cries of the girls for help could be plainly heard by other pleasure seekers, who thought the shouting was being made in fun. Their realization of the true facts came too late to render help.

A GENERAL SURPRISE

FOR THOSE WHO THOUGHT BOULANGISM DEAD.

A Victory for Boulangists in the Chamber of Deputies—The Kaiser's Visit to England the Subject of Popular Discussion in Berlin, etc., etc.

LONDON, July 17.—Dispatches from Paris in relation to the scenes in the Chamber of Deputies yesterday show that those who cherished the idea that Boulangism was no longer capable of stirring up a row have met with a genuine surprise, while the cabinet sustained a rebuff which must have completely depressed the gentlemen composing that body, so even has been their political path for many months past. It was to be expected that sooner or later some of the deputies would revive the question of the German passport regulations in the conquered provinces, but nobody dreamt that the ministry would have any difficulty in evading a reply or in completely ignoring the matter if it should see fit. The coalition which cast the majority of votes against the government on the question of discussing the regulations adopted by Germany concerning the passports across the French border was quietly formed and confident of success, but was scarcely aware of its own strength, for it was later admitted by one of their number that the result of the decision was as surprising to them as it was gratifying. The subsequent discussion of the matter in the chamber will doubtless be as exciting as the most urgent anti-German agitator could wish, and the debate will be watched with great interest in Berlin. Meantime Boulangerists will make the most of their victory, for victory it is, though it probably will not have a tendency to add much to their voting strength at the polls. Yet the incident has given the faction a degree of importance which it did not before possess and imparted to it a new lease of life as an element of discord, if not as a political faction.

GOOD FEELING FOR ENGLAND IN GERMANY.

The Kaiser's visit to England is still the subject of popular discussion in Berlin, where every prominent incident connected therewith is commented upon in cafes, clubs and street gatherings, as animatedly as when the Emperor was in the height of enjoyment of the honors which were being showered upon him on the insular kingdom. It is a matter of fact which has become conspicuously noticeable within the last few days, that scarcely a man can be found in a public place in the German capital who does not entertain a most friendly feeling toward England, and who does not regard that country as the ally of Germany in any foreign complication in which the Fatherland may become involved in the future. To what extent these sentiments are shared by those in high official life it is impossible to say with certainty, but it is safe to say that they are all drawn closer to England in the bonds of friendship than they were before their sovereign was met and embraced by his grandmother, Queen Victoria, on the threshold of Windsor Castle a few days ago.

THE CZAR TO VISIT FRANCE.

A dispatch from St. Petersburg says that the preparations for giving an official reception to the French fleet, under the command of Admiral Gervais, which is now on its way to Cronstadt, have been completed. Nothing has been left undone that would tend to make the reception both at St. Petersburg and Cronstadt a thorough success, and as everything has been conducted under the express orders of the Czar, the honors paid to the warships and their officers will have the widest significance, as attesting the true feeling of Russia towards France. The dispatch also says that the report in circulation a few weeks ago that the Czar will visit Paris in October, is again abroad, and this time is followed by no official denial, as was the case before.

PRACTICED WHAT HE PREACHED.

The Social Democrat, of London, prints a long editorial article commending the reported action of Herr Linger, the German socialist deputy, in disposing of the bulk of his immense fortune for the benefit of social democracy in Germany and says that other socialists would follow Linger's example if they would practice what they preached.

The Congregational Convention.

LONDON, July 10.—This morning at the session of the International Congregational Council, Rev. Dr. J. K. McLean, of Oakland, Cals., delivered an address on the subject of "Home Missions." During the afternoon Cyrus W. Northrope, of Minneapolis, addressed the council of the conference upon "Public Morals," which the council will hold in City Temple next Monday, and at which Rev. Joseph Parker will preside. It is exciting great interest. A resolution will be there submitted to the effect that the time has arrived for the recognition of the truth that moral law is equally binding upon men and women, and that all statutory disabilities on account of sex or set should be repealed, and that the privileges of adulteries and the regulation of prostitutes should be abolished. It will also be urged that the age of consent should be raised to sixteen years.

THE ELEMENTS AT WAR.

Two Men Killed by Lightning and Valuable Property Destroyed.

WEST CHESTER, Pa., July 16.—This place was visited late yesterday by the most terrific thunder storm of the season. Rain fell in torrents, the thunder was awful and the lightning blinding. Two Italians, working on Lenape branch of the electric railway were struck and instantly killed. They had taken refuge from the rain under a large bottom wood tree when a bolt struck it. A. Dolan was riding a horse about 20 feet from the tree at the time, and the horse was knocked down together with Dolan lay stunned for some time, though not seriously injured. About the same time a large barn on John Krelles farm was struck by lightning and entirely destroyed by fire. The barn was valued at $4000 and nothing was saved from it except two horses. Wm. Kane and Geo. Davitt were in the barn and were stunned. They were saved from being burned by friends carrying them out.

FIGHT WITH A MAD BULL.

A Nervy Young Woman Saves Her Father's Life with the Aid of a Pitchfork.

SYRACUSE, N. Y., July 16.—Walter Shattuck, a farmer living near the village of Liverpool, had a terrible encounter with a mad bull yesterday and lies at the point of death. The bull got out of the pasture and Mr. Shattuck took a club to drive him back. The bull went along for a few rods and then turned upon Mr. Shattuck and knocking him down the animal jumped on the man and tried to gore him. Mr. Shattuck caught the bull by the ring in his nose by one hand and with the other grasped the animal's tongue. His wife and daughter saw the fight from the house and hurried to the rescue. When they reached him he sent his daughter to the barn for a fork and when she returned he instructed her to run the tine of the fork through the ring and pinion the bull's head to the ground. She did this and released her father. Shattuck's clothes were torn to shreds and he was dreadfully cut and bruised.

DOWN ON AMERICANS.

They Want a Warship to act as Their Defence.

PORT AU PRINCE, July 3.—All American citizens here unite in saying that their safety and their business interests demand the presence of a man-of-war. The native feeling against foreigners is general, but against Americans particularly is most hostile and outspoken. Conservative and cool-headed Americans in Port au Prince, who are not alarmists, declare that should another outbreak, such as that of May 28, occur, and no warship be in port at the time, there will almost surely be a number of Americans killed.

This feeling of hostility is largely due to the Mole St. Nicholas affair, the natives believing that the possession of the mole St. Nicholas by the United States would only be the first step towards that country gaining complete possession of the island. The truthful but not complimentary manner in which Haiti and its people and the happenings have been presented through the columns of the American press has also aroused much enmity against citizens of the United States.

JAPANESE SAILORS

To Be Used on the Pacific Coast In Defiance of the Seamen's Union.

SAN FRANCISCO, July 15.—Ship owners on this coast can now join hands with the coast seamen in the fight against foreign steamers who are trying to crowd American vessels off the coast. The British tramp steamer Talchow has arrived here with a cargo of coal and will take the place of the West Indian, that vessel having been chartered to go to Chili. The new arrival came from China, where for several years she ran between Hongkong and Bangkok. She carries a crew of 35 all told, and out of the lot only six are white men, the rest being Japanese. In reply to a question the second mate said:

"We are here to stay and expect to have plenty to do. Of course, we shall have to carry coal from the north to this city, but we shall have lots of freight going north; in fact, there is more here now than we can carry in two trips."

He was then asked what would be done with Japanese sailors. "Why, keep them, of course. They do just what they are told to do and never give any trouble. Then again, one white man would want as much or more money per month than three of the Japs, so you see that amounts to a great deal in running a steamer a month.

"The West Indian will return to the coast from Chili and the Grandholme is now on her way from England and will be here by the end of this month. So we shall have quite a little fleet of ships here."

It was also learned that it is the intention to bring enough Japanese here to man all three of the steamers if there is much trouble with the coast seamen.

THE EDITORS IN SESSION.

A Number of Questions Discussed—Some Interesting Debates.

ST. PAUL, Minn., July 16.—To-day was devoted to the business before the session of the National Editorial Convention. The discussion on the mechanical department was led by Theodore L. Denn, of the Century Magazine, and F. O'Brien, of the Birmingham (Ala.) Age and Herald.

Among the questions discussed were: The best fonts of type for daily paper and a weekly; what is a reasonable price for composition on dailies and weeklies; average wear and tear of newspaper offices each year; the practicability of the type-setting machines and what would be saved over a compositor's wages; what the publishers should do with the type founders' trust.

Not one of the least symposiums of the gathering was that on advertising, led by Frank Richardson, the noted advertising agent of New York. He took up the questions whether advertising agents were an advantage or otherwise to the press, whether advertising and reading matter should be mixed, whether cuts should be excluded, whether long or short contracts paid best, and whether the National Editorial Association should employ its own agents. The matter evoked very interesting, and at times racy debates.

The following subjects were discussed in order: "Rudiments of business management," by Major J. W. Richardson, of the Indianapolis News; "The Editorial Department," by W. H. Wills, of the Boston Writer, Congressman Owen Scott, of Bloomington; William Vischner, of the State of Washington, and H. W. Bushnell, of Lincoln, Nebraska; "Cooperation" was considered by J. W. Uhlhorn, of San Francisco; "The increase of circulation," by W. H. Hemphill, business manager of the Atlanta Constitution, and "Woman's work in journalism," by Mrs. A. S. Whittaker.

THEY FOUGHT LIKE TIGERS.

Insurgent Gun Boats Capture a Fort—Foreign Sailors in Danger.

SAN FRANCISCO, July 16.—The British bark Dunstaffnage arrived in port last evening with a cargo of nitrate from Caleto Buena. She was boarded by a reporter in search of war news, but the vessel has been 75 days on the trip and no very late news was obtained. "We saw some of the fighting," said the chief mate of the vessel, "and it was warm while it lasted. There were several skirmishes while we lay in Caleto Buena; but the hottest fight took place on February 15, when two rebel vessels, the Toldo and Covadonga, shelled the forts on the hill. The fight lasted about three hours and ended in a victory for the gunboats, as they succeeded in driving every man out of the forts. We lay not far out of line of the fire and came near being hit several times by shot and shell, but the only thing that came on board were half a dozen bullets. No great damage was done to our ship, but the gunboats did not escape so well, as well directed shot from the fort killed two men on board the Toldo and soon after a shell from the fort landed on the deck of the Covadonga and killed two men besides wounding half a dozen.

"The after part of the poop deck was torn all to pieces by the explosion, but the rebels only fought harder and succeeded in killing eight men in the fort before the fight ended. No one was allowed on shore but the captain, and he had to report on board the Covadonga both coming and going. Not even a boat was allowed to cross the harbor without permission from the gunboat. The American bark Belevidere was at shore in the harbor and her mate and myself took a boat one day and went out fishing. When we returned, we did not go alongside the gunboat to report as we had been lying in plain view of her all day and they knew we had not been ashore.

"But that made no difference, for no sooner did we attempt to pass her than they opened fire on us with their small arms and nothing but very bad marksmanship saved us from being riddled. As it was our boat was shot through and through, and soon filled with water. We were in a nice fix, for no help from our vessels could come to us, and we began to think the Chilians were going to let us drown like a pair of rats, but they finally got out a boat and picked us up. We were taken on board the Covadonga and kept there until the next day and then told we could go on board our vessels, but not to go ashing without permission."

"Don't Care to Eat."

It is with the greatest confidence that Hood's Sarsaparilla is recommended for loss of appetite, indigestion, sick headache, and similar troubles. This medicine gently tones the stomach, assists digestion, and makes one "real hungry." Persons in delicate health, after taking Hood's Sarsaparilla a few days, find themselves longing for and eating the plainest food with unexpected relish.

The British Columbia Deposit and Loan Co., Ltd.

Capital $500,000 (with power to increase), Divided into 10,000 Shares of $50 each.

DIRECTORS.—The Hon. Sir Joseph W. Trutch, Victoria, K.C.M.G., Chairman. E. Crow Baker, Esq., Victoria; C. T. Dupont, Esq., Victoria; Thomas Earle Esq. (Thos. Earle & Co.), Victoria, M.P.; Merchant; Thomas R. Hall, (Victoria and Montreal, "Mount Royal Milling and Manufacturing Company, Limited), Victoria, Manufacturer; William Wilson, Esq. (W. & J. Wilson), Victoria, Merchant; Henry Young, Esq. (Henry Young & Co.), Victoria, Merchant.

OFFICES—Turner Block, Douglas Street, Victoria, B.C.
SOLICITORS—Messrs. Drake, Jackson & Helmcken, Bastion Street, Victoria, B.C.
BANKERS—The Bank of British Columbia, Victoria, B.C.
MANAGER—J. Keith Wilson, Esq.

The objects for which the Company is established are:—

1. To invest and lend money at interest on the security of real estate or other property in British Columbia and elsewhere, or any interest therein, including existing mortgages or other securities, also to purchase the bonds or debentures of any Government or Municipal body, or of any incorporated railway company, or other incorporated body.

2. To acquire, hold and sell any such property as aforesaid, purchased as aforesaid, or accepted as security for money advanced by or owing to the Company.

3. To build on, drain, let, farm, develop or otherwise utilize or improve, and generally exercise the rights of owners over any property the Company may lend on or acquire an interest in.

4. To undertake agencies and conduct financial business of any kind in British Columbia or elsewhere.

5. To receive and take money on deposit, or for investment on the guarantee of the Company or otherwise, or to guarantee payment of any money expressed to be secured by any mortgage.

6. To borrow money at interest, and to issue bonds or debentures as security therefor; and

7. To perform all such acts, matters and things as the Company may deem incidental or otherwise conducive to the attainment of any of the above objects, or to the conversion or disposition of any security or property held by the Company.

The organization of the Company is the result of the consideration by its promoters of the subject of Insurance, which now permeates nearly every class of mercantile business. When considering the subject it occurred to them that if the principle of Insurance in the form of a satisfactory guarantee for the due payment of interest at a rate to be agreed upon and against loss of principal, were to be applied to the ordinary investment of money on securities, a large percentage of capital now on deposit at low rates of interest in the savings banks and other depositories, and which is locked up, would be withdrawn and become available for loans on securities, and thus be put in circulation.

With a view of offering such guarantee this Company has been incorporated with a capital of $500,000 (with power to increase), a small instalment only, viz., $10,000, of which has been called up to meet initiatory expenses. The remaining unpaid portion of this capital sum, viz., $490,000, shall form such guarantee to investors with the Company, which it is intended to supplement by the creation of a Reserve Fund, of which the unexpended balance of the capital called up shall form the nucleus.

It is further intended that no calls shall be made in respect to the unpaid capital except to meet liabilities.

The whole of the capital has been subscribed by persons whose position, both financially and socially, is believed to be unquestionable; and by the Articles of Association no person can hold more than 200 shares (representing $10,000); nor will any shareholder be at liberty to have transfer of his shares registered without the sanction of the Directors having been first obtained.

Deposits may be secured by debentures to be issued by the Company or by similar debentures secured by the hypothecation of securities taken by the Company.

Arrangements may be effected with the Company for the guarantee of securities approved by the Company.

CONVICT LABOR IN MINES.

Indignant Citizens Took Them From the Guard—Bloodshed Feared.

KNOXVILLE, Tenn., July 15.—About 40 convicts employed as miners by the Tennessee Mining Company at Briceville, Anderson county, were released this morning. Two hundred and fifty armed miners and indignant men went to the mines and took the convicts from the guards.

No violence was offered, but the convicts were told they could go free if they wished. Two of them wanted liberty and left, but the others, fearing capture, and not having a change of clothing, refused the offer. The prisoners were placed in a car and brought to this place, where Superintendent Goodwin is awaiting orders.

The coal company claim that they were forced to employ convict labor, and they ask the lessee of the penitentiary and the state to protect them in the contract recently made. The governor, with two companies of militia, is on the way to the scene of trouble, and as 150 convicts are expected to arrive at the mine to-morrow, the matter may result in bloodshed.

"The Western Canadian Ranching Company, Limited (Foreign)."

Registered the 30th day of June, 1891.

CERTIFICATE OF REGISTRATION.

THIS IS TO CERTIFY that I have this day registered "The Western Canadian Ranching Company, Limited (Foreign)," under the "Companies Act, Part IV, "Registration of Foreign Companies.

The objects for which the Company is established are:—

1. To purchase or otherwise acquire any landed property, or any interest therein, in the Dominion of Canada, the United States of America, or elsewhere, and in particular certain estates situate in British Columbia, in the said Dominion, included for shortness of description under the general description of "Harpers' Ranches," with the farms, buildings, franchises, stock, cattle, horses, sheep, and produce thereon, and the minerals thereunder, and the business of cattle raising, breeding, dealing, and selling, saw and flour milling, and every other business which now is, or conveniently could be, carried on in connection therewith, and with a view thereto enter into the agreement referred to in clause 3 of the Company's Articles of Association, and to carry the same into effect with or without modification.

2. To purchase, or to take under any concession, lease, or in exchange, to hire, or otherwise acquire, settle, improve, farm and cultivate lands of any tenure, franchises, and hereditaments situate in the Dominion of Canada, the United States of America, or elsewhere, and any mines, minerals ships, steamboats, barges and other vessels, engines, railway waggons, tanks, reservoirs, manufacturing plant, apparatus, and stock-in-trade, and any other real and personal property of whatever description (including any rights or privileges), whether the same be unencumbered or subject to any mortgage, charge, lien, easements, privileges, licenses, concessions, or otherwise, and to develop and turn to account the resources of the lands, buildings, water, and other rights, and all other properties for the time being belonging to the Company in such manner as the Company may think fit, and in particular by building any kind of structure thereupon, planting, reclaiming, clearing, mining, quarrying, excavating, road-making, damming, draining, fencing, grazing, farming, and otherwise dealing with and working the same, and to stock lands and farms, and to breed, grow, and deal in all kinds of stock, cattle, horses, sheep, and produce, and to erect and maintain thereon suitable buildings and structures, including slaughtering, refrigerating, and converting establishments.

3 To carry on the business of farmers, graziers, agisters, cattle, sheep, and horse breeders and dealers, meat and fruit preservers, millers, bakers, brewers, planters, miners, metallurgists, smelters, quarry owners, brick makers, builders, contractors for works, both public and private, wool and other merchants, store-keepers, importers and exporters, ship-builders, ship owners, and any other business which may seem calculated, directly or indirectly, to develop the Company's property, or any part thereof, or which may conveniently be carried on in connection with any other business of the Company.

4. To carry on business as timber merchants, saw-mill proprietors, and timber growers, and to buy, sell, grow, and prepare for market, manipulate, import, export, and deal in timber and wood of all kinds, and to buy, lease, or otherwise acquire, clear, plant and work timber estates or timber rights.

5. To aid, encourage, and promote immigration, emigration, colonization, and settlement, and for such purposes to lend and grant sums of money, and to act as agents therefor, and to build, lay out, settle, colonize and develop towns and villages on the lands acquired or controlled by the Company from time to time.

6. To search for, prospect, examine and explore mines and grounds supposed to contain minerals or precious stones, and to search for and obtain information in regard to mines to purchase, lease, or otherwise acquire, and to sell, dispose of and deal with mines and mining rights of all kinds, and to work, operate, develop, and turn to account mines and mining rights, and any undertakings connected therewith.

7. To advance money at interest to any person or corporation on the security of freehold and leasehold land, stock, stations, wool, cattle, produce, crops, shares, securities, merchandise, and other property in the Dominion of Canada, the United States of America, or elsewhere, and generally to lend and advance money to such persons, and upon such terms, and subject to such conditions as may seem expedient, and to buy, manufacture, deal in, and sell all kinds of goods, chattels, merchandise, produce, and effects.

8. To construct, execute, carry out, equip, improve, work, administer, manage, or control railways, tramways, warehouses, mills, stores, shops, markets, churches, hospitals, baths, and public and private works of all kinds in the said Dominion of Canada, the United States of America, or elsewhere, which may seem calculated directly or indirectly to enhance the value of any property in which the Company is interested.

9. To establish and subsidize any institution, club, or conveniences for the benefit of the Company's employees, and of any tenants or other person in whose welfare the Company is interested, and to provide for their religious, sanitary, social, and educational welfare, and to grant money for these purposes or any of them.

10. To purchase, or otherwise acquire and undertake all or any part of the business, property, and liabilities of any person, firm, or company possessed of property suitable for the purposes of this Company, or carrying on, or about to carry on, any business which this Company is authorized to carry on, or which is capable of being conducted so as directly or indirectly to benefit this Company, and to enter into partnership, or into any arrangement for sharing profits, for union of interests, reciprocal concession, or co-operation, or amalgamation, either in whole or in part, with any such company, firm or person.

11. To take, or otherwise acquire, and hold, or sell shares, stock, bonds, debentures, or any other interest in any other company, whether British, Colonial or Foreign, in which the liability of the members is limited, having objects altogether or in part similar to those of this Company, or carrying on any business capable of being conducted so as to directly or indirectly benefit this Company, and to subsidize, or otherwise assist, any such Company.

12. To obtain any provisional order, or Act of Parliament, or legislative provision, decree, or order of any Colony, Government, body, or authority to incorporate the members as a body politic or corporate, in accordance with the laws and constitution of any country or state in which the Company shall be carrying on, or be desirous of carrying on, any of its operations, and to take all steps and do all things necessary to give the Company, or any company subsidiary thereto, a legal domicile in any such country or state, and such legislative powers as will facilitate the carrying into effect of the objects of the Company therein.

13. To borrow and raise money for the purposes of the Company in such manner and upon such terms as the Company shall think fit, and to secure the repayment thereof by bonds or debentures, or by redeemable or irredeemable debenture stock (such bonds, debentures, and debenture stock being to bearer or otherwise), or by any other instruments, or by deposit, receipts, bills of exchange, or promissory notes, or in such other manner as may be determined, and for any such purposes, if so agreed, to charge all or any part of the property of the Company (both present and future) including the uncalled capital.

14. To transact all manner of agency and commission business, and in particular to act as agents for any person or company in the purchase, sale, improvement, or management in any way of any lands, farms, cattle, stock, or other property in the Dominion of Canada, the United States of America, or elsewhere, where the company may for the time then being be carrying on business, and to carry on the business of general, commercial, mercantile, shipping, or forwarding agents, or agents for any railway, steamship, or other company.

15. To lend or advance money to such persons or on such terms as may seem expedient, and in particular to customers of and persons having dealings with the Company, and to guarantee the performance of contracts by members of or persons having dealings with the Company.

16. To invest and deal with the moneys of the Company not immediately required upon such securities, and in such manner, as may from time to time be determined, but not in the purchasing of or dealing in the shares of the Company.

17. To make, draw, accept, indorse, discount and execute promissory notes, bills of exchange and other negotiable instruments.

18. To promote any other company for the purpose of acquiring all or any of the property, rights, and liabilities of the Company, or for any other purpose which may seem, directly or indirectly, calculated to benefit this Company.

19. To sell, dispose of by sale, lease, underlease, exchange, surrender, mortgage, or otherwise absolutely, conditionally, or for any limited interest, all or any part of the undertaking, property, rights, or privileges of the Company, as a going concern, or otherwise, to any public body, company, society, or association, or to any person or persons, and in particular to any other company having objects altogether or in part similar to those of this Company, and to accept as the consideration, or part of the consideration, for such disposal money, stock, shares, debentures, or other securities, either for distribution in specie among the members, or otherwise.

20. To use, work, develop, grant licenses and otherwise make profits by dealing with and turning to account all or any part of the undertaking and property of the Company, and for this purpose to determine how much of the proceeds of sale or realization thereof is to be deemed capital, and how much profit, and to distribute any such profits amongst the members in specie or otherwise.

21. To allot the shares of the Company, credited as fully or partly paid up, as the whole or part of the purchase price for any property purchased by the Company, or for any valuable consideration.

22. To remunerate any person or persons for services rendered, or to be rendered, in placing, or guaranteeing the placing, of any shares or securities of the Company, or in relation to the establishment of the Company, or the conduct of its business, and to apportion and appropriate such parts of the capital or funds of the company as may be expedient to the payment of such brokerage, discounts, or other expenses as may be deemed incidental to the formation and promotion of the Company, and the placing of its shares and debentures, or any part thereof.

23. To do all or any of the above things as principals, agents, contractors, trustees, or otherwise, and by or through trustees, agents, or otherwise, and either alone or in conjunction with others, and to contract for the carrying on of the operations connected with the Company's business, or any of them, by any person, company, or other association.

24. To carry out the objects comprised in each paragraph of this clause in as full and ample a manner, and construed in as wide a sense as they would be construed if each paragraph of this clause defined the objects of a separate, distinct, and independent company, and so that such objects shall not, except where otherwise expressed in such paragraph, be restricted by reference to the objects indicated in any other paragraph.

25. To do all such other things as in fact are, or as the company shall consider to be, incidental or conducive to the above objects, or any of them, and so that the word "company" in this memorandum, except where used in reference to this company, shall be deemed to include any partnership or other body of persons, whether incorporated or not incorporated, and wherever domiciled.

The amount of the capital stock of the said Company is $100,000, divided into 100 founders' shares of $1 each, and 9900 ordinary shares of $10 each.

The place of business of the said company is located at the City of Victoria, in the Province of British Columbia.

In testimony whereof, I have hereto set my hand and affixed my seal of office, this 30th day of June, 1891, at the City of Victoria, in the Province of British Columbia.

THE CRY OF MILLIONS
OH, MY BACK!
STOP IT NOW.
SOON IT WILL BE TOO LATE.
I have been troubled many years with disease of the kidneys and have tried many different remedies and have sought aid from different physicians without relief. About the 15th of April I was suffering from a very violent attack that almost prostrated me in such a manner that I was bent over. When I sat down it was almost impossible for me to get up alone, so to put on my clothes, when the Proprietors sent Dr. Hosley, with the DOUGLAS KIDNEY TEA, to my hotel. I immediately commenced using the tea. It had an almost miraculous effect, and to the astonishment of all the guests of the hotel, in a few days I am happy to state, that I was a new man. I will recommend the tea to all afflicted as I have been.

IMPERIAL FEDERATION.

Sir CHARLES TUPPER, not being either a fool or a crank, shall we suppose him an honest believer in Imperial Federation? We had rather think that Sir CHARLES is an Imperial Federationist, not because he believes it to be practicable, but because it is respectable. There is nothing like being in good company, and among the advocates of a federated empire there are some very amiable and respectable gentlemen, so much so in fact, that when we think of Sir CHARLES in their company we are reminded of a bull in a china shop. Imperial Federation is a dream. Had the idea been acted upon half a century ago, or even a generation ago, we may suppose that it would have materialized. But it is now too late. The Colonies are not in the humor for massive political concerns. The later generation has imbibed ideas of government different from those which received very general acceptance forty and fifty years ago. Conquest for the sake of conquest is archaic. The acquisition of territory by force practically went out of fashion at Waterloo. Feeble governments no longer are in danger of absorption by their more powerful neighbors. The consensus of opinion is against it. Much as the United States would like to acquire some of the West India islands and Hawaii, she could do so only at the expense of a moral shock to Christendom. Territorial acquisition nowadays must be a bargain, not a case where the weaker bends to the will of the stronger. In these circumstances, federation, as it would be exemplified by the Imperialist scheme, is superfluous save for commercial purposes; and a condition of commerce that could only be reached by Imperial Federation in the very nature of things would not last long. Conflicting interests would soon effect its disintegration. What good purpose would be subserved by Imperial Federation? Does England want more power? She already dominates the earth. Is she in danger of being overwhelmed? Not while there is a man in her colonies who is able to carry a musket. Would she extend her trade? Then she must establish connection with some of the planets. Imperial Federation is but a sentiment, and the grossest kind of a sentiment at that. It is impracticable not because British colonists are disloyal, but because they realize that government must be on the spot. Politics must have the flavor of the soil. Downing street politics in Australia and in Canada would be an exotic. We have said that Imperial Federation is a sentiment. It is more. It is a survival of the old Tory idea that British interests are paramount, and that a colonist is an inferior sort of a creature. It is a distinctively Tory foible that the moment an Englishman transfers himself to a colony he is no longer fit for self government. But it is proposed that the colonies shall be represented in Parliament. In what proportion we ask? Are, say, 10,000,000 colonists to have the same numerical representation as the United Kingdom? Without it they would be in the minority and any one can understand what that means. Lord SALISBURY has requested the Imperial Federationists to furnish him with their political bill of fare. He wants to see their scheme in cold type. After-dinner Imperial Federation reinforced by copious libations of champagne does not recommend itself to his Lordship. SALISBURY is right. Perfectly sober, there is not a man among the Imperial Federationists who can draw up a scheme that would stand the test of five minutes' criticism, and SALISBURY knows it. If we thought that Imperial Federation was practicable we would endorse it. Terrified as the idea is we rather like it. But it is not practicable except at the expense of colonial interests. Sir CHARLES DILKE speaks of the Colonies as the "Greater Britain." Let us remember that. Don't let us undertake to shape destiny to conform with Tory susceptibilities. It is a hopeless task. Toryism is mighty, but destiny is mightier. Will the day ever come when the Tories will cease to kick against destiny?

FLOGGING AS A DETERRENT.

There are thoughtful people, observes a contemporary, who have observed and studied the condition of society and the effects on criminals of the several modes of punishment for the various phases of crime, who are convinced that the death penalty might without danger to society and civilization be abandoned if some other penalty were substituted that would be equally abhorrent and terrorizing to those deserving punishment. The punishment which many now believe would be the greatest deterrent of murder and other crimes that now entail the penalty of death is: 1st, Imprisonment for life; 2nd, Hard labor; 3rd, An annual flagellation, and 4th, the publication of a brief record of the crime yearly in an official journal after each flogging has taken place; the object of this latter being to impress the unfortunate transgressor and those who are not yet transgressors in a score of ways that may suggest themselves to the thoughtful reader.

There is no specific deterrent for anything which has its origin in the human possions. It is argued by philosophers of the BELLAMY stripe that when want shall cease on this earth, when life shall be made comparatively easy, crime will disappear. That this would be the case relatively is true. Lack of the commonest necessities of life is at the bottom of seventy-five per cent. of crime. But the other twenty-five per cent. of criminality cannot be said to originate in such sources. No man is a gambler of necessity, nor are murder, arson, rape and divers other crimes born of hardship. These have an origin in the human passions, in the want of proper moral balance, and seemingly are not affected by the severest penal laws. A century ago the death penalty in England covered crimes which are now regarded venial, but the crop of criminals continued undiminished. The falling off of crime in England dates from the time when her industrial conditions began to improve. But, as we were saying, there is no condition, seemingly, no matter how favorable, that operates to prevent crime. Strong passions, together with a deficient moral faculty, drive men to crime despite the fact that in a worldly sense they possess all that could be reasonably desired. Bearing this in mind it would seem folly almost to cast about for deterrents to crime. The best that can be done is to hang and imprison for long terms. Society must protect itself against people with whom depravity is normal, and that can only be done by inflicting the death penalty and by imprisonment. In certain cases flogging might be adopted with advantage, particularly in the cases of those to whom short terms of imprisonment are no disgrace, but are simply detentions which enable them to recruit their energies for fresh raids on society.

DEPARTMENT OF THE INTERIOR.

The revelations in connection with the Department of the Interior well illustrate the degrading influences of Tory rule at Ottawa. By the investigation of the Public Accounts Committee it was shown that the irregularities in the department had been going on for years, and that not only some of the clerks but Deputy Minister BURGESS himself were involved. A clause of the Civil Service Act provides that no officer or employee of any of the departments shall receive extra pay on any account unless a sum has been regularly voted by Parliament for that special purpose. One plan of evading this provision was pursued by TURNER, a clerk in the Interior Department, who received pay for extra work by having cheques made out in the name of one JOSEPH WRIGHT, a distant relative of his, who is now dead. He had always endorsed the cheques in WRIGHT's name, and apparently never had any trouble; in fact his proceedings are quite well known to Deputy Minister BURGESS and to Mr. DOUGLAS, the late Secretary of the Department. Last year he drew $237.50 in addition to his regular salary, which was $950. Mr. BURGESS, on being questioned, admitted that he knew of these irregular payments, but maintained that there was nothing wrong in them, as the country got an equivalent for them in the extra work done. Various other clerks were shown to be following the same course, and now it appears that even the Assistant Secretary of the Department, Mr. PEREIRA, has been drawing extra pay illegally, first in his wife's name and then in that of "ELLEN BERRY." Another scheme for evading the law was the employment of the names of temporary clerks, to whom cheques would be made out, the money being handed by them to the permanent clerks as payment for extra work.

It is most astounding to find an officer like Deputy-Minister BURGESS not only consenting to and defending this illegal procedure, but actually committing an irregularity himself. According to his own story and that of Mr. HENRY, the Secretary of the department, Mr. BURGESS employed his father-in-law, Mr. ANDERSON, to revise and edit a report on forestry. Instead of having Mr. ANDERSON paid in the regular way, Mr. BURGESS advanced him $100 out of his own pocket, and subsequently recouping himself by the following means: The sum of $100 was due to one HUMPHREYS, who was temporarily employed in the department. A check was made out to HUMPHREYS for $200, and it was certified to by Mr. HENRY. Then, when the money was drawn, HUMPHREYS handed over the extra $100 to Mr. BURGESS' private secretary. The Deputy Minister of course did not profit personally by this transaction, but it is hard to see how his sense of duty would allow him to engage in it. Mr. BURGESS has hitherto enjoyed a high reputation for efficiency and honesty, and his unfortunate lapse is a surprise to the public. The evil associations at Ottawa appear to have overcome both him and Mr. PERLEY; the taint of corruption has spread from the heads of departments down through all ranks of officials and clerks so that "boodle" has come to be the only rule of conduct.

EDITORIAL NOTES.

When Mr. PERLEY was before the Privileges and Elections Committee, Mr. EDGAR asked him whether the contract for the famous cross wall at Quebec was carried out according to the original plans. The answer was: "Yes, with but a slight change, which did not materially vary the quantities." This simple change appears to have been the substitution of a stone bitre sill for a wooden one. The significance of this answer lies in the fact that though there was no material alteration made, the contractors received a very substantial amount for "extras," and it is not wonderful if people are ready to believe that a good deal of this went to the "uncles."

Le Canada, the French-Canadian journal at Ottawa, has caused something of a sensation by its remarks on departmental crookedness. It will be noticed that friendliness for Sir HECTOR causes it to specially except that Minister and his department, while hitting out fiercely at some of the others. Sir HECTOR will not go down alone, if he can help it. Says Le Canada:

Nepotism, favoritism, malversation, speculation, injustice—and they are the order of the day! The Chief Engineer of the Department of Public Works has just succumbed, and yet that department is comparatively a model of honest administration. Let us look around, let us cast a scrutinizing eye on those departments whose political leaders owe their advancement to petticoat influence or other unmentionable means. There we find officialism installed deep-rooted with all its environments. It is master of the situation. The frightful results of its reign are cruelly felt among those who are not its favorites. It leaves everywhere its hideous traces; it reigns by corruption, it lives for pillage, it delights in injustice, despotism and imbecility. That is what rules certain ministers at Ottawa. That is the cursed system which takes root in the offices of state, thanks to certain incapable ministers unable to see what is patent to every one. We still have "percentage bloodhounds." It is that organization on another footing but equally detestable, equally corrupt and equally deep-rooted. They attach themselves to their victims with the tenacity and courage of the wild beast. They begin by borrowing, then propose a division of the profits, and in the end threaten with brazen effrontery if the former means are not successful. We write these lines in the greatest sangfroid and knowing perfectly the weight and gravity of these accusations. We confine ourselves today to generalities; later we will enter into details.

POLICE MAGISTRATE.

TO THE EDITOR—I claim that I have acted as an "honest self-respecting man" should have acted in this matter, although I appear in the minority. The appointment of police magistrate is a position of some importance and of interest to every citizen in this community. The appointment should be given to a well-known and tried man and not to a person almost a stranger, and I sincerely trust that the Attorney-General will not advise that such a person should be placed on the commission of the peace. With regard to the charges made by Mr. Boscowitz against Mr. Belyea, I heartily support the course taken by Ald. Richards.

Government Appointments.

The Gazette issued last evening contains the announcement of the appointment of H. A. Barton, M.A., as deputy attorney-general. Henry Saunders, Esq., has been appointed the Government trustee in place of H. F. Heisterman, Esq.

Delivered Free.

The San Francisco Examiner, S. F. Call, S. F. Chronicle, Seattle Post-Intelligencer, Seattle Telegraph, Portland Oregonian, or any other papers or periodicals, will be delivered free, by applying at the "Victoria News Agency," Kerr & Begg, Booksellers and Stationers, 45 Government street. j62w

Accepted His Resignation.

It is just a month ago since Mr. H. F. Heisterman tendered his resignation of the position of school trustee, and it has taken all that time for the huge machine at James Bay to accept and acknowledge his communication. He received the news this morning that it had pleased the authorities to accept his resignation.

Going to Australia.

Mr. John Calvert, who for some years has been in business on Broad street, where he conducted a tailoring establishment, is contemplating selling out his stock and settling in the sunny southern land of Australia. Mr. Calvert is not dissatisfied with Victoria, but he thinks the land down south will suit him better.

More Machinery.

Among the freight by the City of Kingston last evening was a lot of machinery for the Taylor Mill Company who some time ago bought the Queen City planing mill. The machinery is that taken out of the company's old mill at Tacoma and will be quite an addition to their mill in this city, which they have enlarged.

A Pleasant Evening.

A first class programme was rendered last evening at the cathedral school room on the occasion of the strawberry festival in aid of the building fund of St. Barnabas church. Among those who assisted were the Misses Lawson, Whittaker and Johnson, Mrs. Janion, Mrs. Blythe, Ven. Archdeacon Scriven and Messrs. Wallace, Boyd, Wootton and Woolaston.

A Chance for All.

Mr. Pferdner's band will accompany the excursionists on the steamer Olympian, which, to-morrow afternoon at 1:30 will leave on a trip to Cape Flattery. The owners of the steamer have made the fare very low, viz., $1.00 so that everybody is given a chance to spend a pleasant afternoon and get some good fresh sea air at the same time.

A Peculiar Request.

Mr. Dowler, city clerk, unearthed today a somewhat peculiar document. It is a request to the council which would be highly ridiculed to-day. A party of two are about to open a dancing house on Waddington Alley, and they respectfully ask for a remission of taxation for a period of six months. And the beauty of the case is that the then presiding magistrate granted the request.

With the Machinery.

The steamer Sir James Douglas returned last evening from Vancouver with the machinery for the new lighthouse and fog horn at Carmanah Point. Capt. Gaudin and his engineer will have charge of its erection and Mr. W. P. Dakin, formerly of the Race Rocks lighthouse, will be in charge. The Douglas has just returned from a trip as far north as Banks Island, where she had gone to locate a number of Indian reservations.

He May be Disabled.

A serious accident occurred the day before yesterday on the sewerage machine now working on Cook street. One of the workmen had something to do with the machine, and by some mischance got his left hand caught in the cogs which smashed him up badly. He was at once conveyed to Dr. Milne, who, in order to save the unfortunate man's hand, amputated the two first fingers. The hand may yet be saved. The man is now resting at St. Joseph's hospital.

The Deserted Police Court.

Just now, with the difficulty of appointing a police magistrate, the criminally inclined seem to want to save the city that official's salary. The police court for the past week has been practically deserted, and, consequently the police officers are looking forward to holidays that will bring them the assurance of complete rest. This morning in order to save the court from being absolutely closed down a drunk presented himself and paid the usual fee for the privilege.

Work on the Sewers.

The sewerage contractors are now making good headway on the hardest piece of work that they expect to run across on their contract. It is the solid bunch of stone that runs from Blanchard and Humboldt streets to the corner of Wharf and Fort streets. They are getting along splendidly with their tunnels, the first one now being about 30 feet in. Pipes have been laid to Mears street on Cook street, from Marvin's hill to Douglas street on Humboldt street, and from Wharf street to Store street on Johnson street. They have also started trenching on Store and Discovery streets.

We Mean What We Say.

Call and inspect the stock of Jackson & Mylius. They have the finest stock of jewelry in the city and their prices are correct. 76 Government street, Colonist building, is the place.

The Warspite.

H.M.S. Warspite will enter the Esquimalt dock at 9 o'clock to-morrow evening. She has had her powder, coal and stores taken out so that she now stands pretty high in the water. She will be drawing about 25 feet of water when she enters.

The Place to go to.

To make room for our new stock of goods that is coming, we will sell the stock in hand consisting of gent's furnishing, etc., at prices that have no equal. Our children's jersey suits will all be sold at cost. Lion Gent's Furnishing House, 74 Yates street.

Excursion to Cape Flattery.

The fine steamer Olympian will make an excursion to Cape Flattery on Saturday July 18th, leaving the wharf at the foot of Yates street at 1:30 p.m. and returning by moonlight. Fare for the round trip will be $1. A full band will furnish music. July 13-5t

Where The Times Goes.

The Aberdeen Evening Express of May 29 contains a notice of the illustrated number of the TIMES, and reprints what it says about Mayor Grant, Dr. Milne and Mr. Joseph Hunter, three Aberdeenshire men who have made their mark in the political, professional and business life in this part of the Dominion.

Only a Rumor.

A report was circulated around the city last evening that the sealing schooner Vancouver Belle had been wrecked in Behring Sea. Whence the report emanated it is hard to say, but it must have been started by someone either as a joke or to scare the friends of the crew, for nothing could have been heard later than by the arrival of the Maggie Mac, and further, not one of the sealers have heard a word about the matter.

Land Sale.

The sale of government lands at Vancouver on Wednesday show that values for outside property are still advancing. The sale was by auction, and the land sold is situated on the north of Burrard Inlet and to the west of Capilano River, being an expired timber lease formerly held by the Moodyville Sawmill Co. It had been divided into blocks varying in size from 2.42 acres, which was the first block sold, to 19.5 acres, the size of the last block. The former brought $130 per acre, and the latter $24 per acre. The bidding was spirited throughout, and the total amount of the sale was $52,000.

Making Room for Brick.

The time for old wooden residences below and on Douglas street is fast fading out, and daily the news that an old shack has to come down to make room for a brick block is given to the public. The latest and the last wooden building between Fort and Johnson streets, on the west side of Douglas, is now to be removed. The owners of the property between the block at the corner of Yates and Douglas and the Doane property have decided to build, and tenders are now being called by Mr. C. J. Soule for the removal of the old dwellings. The plans for the new building will be ready in a few days.

Secured the Contract.

In a close competition yesterday, Wilson Bros. were successful in securing the contract for the iron and steel girders for the new Driard. The contract price is in the neighborhood of $13,000, and the work, which will be commenced forthwith, is one which will keep this foundry busy for some time yet. The goods are to be ready about the middle of September. The same firm was also awarded the contract for the ironwork of the new building for Mr. McCandless, on Johnson street. Although it does not make much fuss, the foundry supplies steady work the year round to quite a number of first-class mechanics and workmen.

Sir John's Successor.

Messrs. Morrow, Holland & Co., have been the given the local agency of the Manufacturer's Life and Accident Insurance Company whose headquaters are at Toronto. This is a purely home company doing business in Canada exclusively, numbering among its stockholders and directors the capitalists of the country. The late Sir John A. Macdonald was its president for many years. The vacancy caused by his death has been filled by Mr. George Gooderham, of Toronto. Mr. W. R. Miller, the provincial manager will be in town in the course of a few days, for the purpose of officially visiting the local agents.

Firemen's Tournament Notes.

A meeting of the general committee to make arrangements for the coming tournament, will be held in the City Hall on Tuesday evening.

The fire insurance companies are donating liberally towards the funds required for the meeting of the Northwestern Firemen's Association.

The executive committee will meet in Portland next week to arrange the prize list.

Mr. T. Nunan, of Seattle, states that a good team will be present from that city.

The New Westminster firemen are preparing for the tournament.

Chief Stockland, of Astoria, is in the city. He will bring over the champions of the world on Sept. 28, to take part in the tournament.

The Canadian Flag.

Ald. Munn, H. E. Levy and M. Young hoisted the new Canadian flag on Beacon Hill flag pole this afternoon.

Directors Meeting.

The first meeting of the new directors of the Provincial Royal Jubilee Hospital was held at the Board of Trade rooms at 3:30 this afternoon, for the purpose of receiving tenders for supplies and for the disposal of routine work.

Back From Ireland.

Wm. Hassard, a pioneer of British Columbia, who has passed the last six years in Fermanagh, Ireland, returned to Victoria last night to remain. A contemplated six months' visit to Ireland was extended to six years and Mr. H. returns again to an almost new city and to a greatly changed population.

Sons of St. George.

The brethren of Milton Lodge visited Victoria West, last evening, to see what the prospects are for the institution of a lodge there of the above order. The requisition received several signatures, with prospects of being further signed. Addresses were delivered in which the aims and objects of the order were explained, and music, befitting the occasion. The meeting then closed by singing heartly the National Anthem.

Another New Industry.

A party of gentlemen, with capital, are organizing for the purpose of manufacturing oil from dogfish. There is understood to be a good market here for that industry, but the promoters have the assurance of a large company in San Francisco to take all the oil that can be made here. The operations of the company will be extended into curing fish and probably raising hogs. The steamers for the business will shortly be built, and work will be commenced this season.

Postponed Until Wednesday.

The departure of the C. P. N. Company's steamer Islander on her northern excursion has been postponed until Wednesday morning, July 22, at 4 o'clock. This change was made so as to afford the steamer an opportunity to connect with the Walla Walla from San Francisco. Several passengers are expected up on the Walla Walla who intend going on the Islander, and by the change the company will also be able to get a supply of fresh fruit for the steward's department.

Seal Skins Shipped.

Carne & Munsie to-day shipped 4702 seal skins, the catch of three schooners, which was brought down by the Danube. The consignment fills 75 casks, weighs 44,333 pounds and will go to Montreal in two refrigerator cars on the C.P.R. The railway men say the skins will be rushed through to London, which city they will reach in 21 or 22 days. The total value of the shipment is $94,000, estimated at present prices, but the shippers expect that it will fetch over $100,000 at the fur sale to be held in London shortly. The value of the industry to Victoria will be recognized, when a shipment of this value is made by one firm, and when the catch was made entirely outside of Behring Sea.

Cadboro Bay to Oak Bay.

The latest thing is a steamboat service between Oak Bay and Cadboro Bay. Mr. Piper means to steal a march on the street cars, which are expected to run into Cadboro Bay next spring, and he is doing it by instituting a steamboat service running in connection with the street cars from Oak Bay to Cadboro Bay, at a five cent fare, thus placing Government street within 20 minutes of the latter bay. There was talk of his putting in a service between San Juan Island and Cadboro and Oak Bays, but the customs difficulty has to be surmounted. Either of these places would have to be made a port of entry, and at present there does not seem to be any likelihood of this being accomplished.

Mr. Davitt and the Crofters.

Michael Davitt, the distinguished Irish home ruler, yesterday visited the San Juan river, where it is proposed to settle a body of Scotch Crofters, which is to be brought out by Mr. Begg under the arrangement with the Imperial and Provincial Governments. Mr. Davitt inspected the country immediately contiguous to the mouth of the river and the straits, and conversed with Indians and white men in respect to the character of the land away from the coast. His opinion is that the San Juan valley is totally unfit for the Crofters, and he predicts that the Province will have to support, for at least five years, any Crofters that may be located in that vicinity. The cost and labor involved in clearing away the heavy timber will be more than the poor Crofters will be able to undertake, and hence Mr. Davitt is convinced that the attempt to colonize these people in such a place will end in a disastrous failure. The San Juan valley, he says, is a paradise for sportsmen. Mr. Davitt left this morning for the Northwest Territories, where he will visit Crofter settlements, returning again to the coast in a few weeks.

Presentation of Prizes.

His Honor Lieutenant-Governor and Mrs. Nelson performed the very pleasing duty of presenting the prizes this afternoon to the successful scholars of Victoria College. Rev. J. Wastie-Green, M. A., the principal, received his distinguished visitors as well as a large number of parents and friends of the pupils.

The prizes awarded were as follows: Chryseau medal—J. A. Rithet; Warden's scholarship—W. M. Musgrave; Catherine decoration—R. H. Pooley; Senior Latin—W. M. Musgrave; Examination marks—Senior, A. S. Aspland; junior, William Edmonds; form marks, senior, R. H. Pooley; second prize, W. M. Musgrave; Divinity, R. H. Pooley; Junior French, J. R. Rome; Senior French, W. M. Musgrave; mathematics, A. S. Aspland; junior form marks, J. R. Rome; writing, J. R. Rome; good conduct, R. Harvey.

GRAND LODGE A.O.U.W.

The Last Day's Proceedings—Will Meet Next in Portland.

At last evening's meeting of the Grand Lodge A.O.U.W. it was decided to hold the next meeting at Portland. This will be the first meeting of the Oregon Lodge, as by that time the Washington and British Columbia Lodges will have dissolved from the present Grand Lodge.

This morning's session was called to order at 10 o'clock and the whole morning was occupied in Grand Lodge business. The Todd matter was settled to the satisfaction of the benificaries.

At two o'clock this afternoon the officers elected yesterday were installed, after which the Grand Lodge proceeded to finish up their business. It is expected that they will finish by five o'clock this evening, at which time they will adjourn.

At a meeting of the Washington delegates it was decided to meet in Tacoma on the second Tuesday in December for the purpose of organizing the Washington Grand Lodge.

The British Columbia delegates have not yet decided what course they will persue. There are three, viz: Stay with the Washington Lodge, join the Ontario Lodge or wait a few months and apply for a Grand Lodge for British Columbia. The latter is the course that Supreme Grand Master Kinsley advised them to follow.

A great many of the Grand Lodge delegates will leave for home this evening via the City of Kingston while some will remain over until Sunday evening. Those who remain will, with the local members enjoy themselves at Oak Bay to-morrow afternoon.

NELSONIAN NOTES.

Mining Outlook Good in Kootenay—A Big Clean Up—Postal Service.

The Miner.]

Within the month active work will have commenced on four of the best known claims on Toad Mountain, viz. the Dandy, the Silver King, the Grizzly Bear and the Iroquois. The owners of the Dandy will put in machine drills and shove development work so as to be in a position to determine as early as possible the sized concentrating plant to erect on the property. The present force on the Silver King will no doubt be increased. Men are now at work putting up buildings on the Grizzly Bear ground, to accommodate the forces that will be employed on the Grizzly Bear and on the Iroquois. The wagon road will be completed to the Silver King within the month, the route being changed so as to run direct to that mine. In Hot Springs district all indications are favorable for a good summer's work. The Skyline crosscut is in favorable ground, small stringers of galena being encountered. The Fourth tunnel is in ore. The Number One ledge is in place. Ashworth & Jevons will put machinery on their properties. J. O. Swift has returned from the Wood River country, and intends to put in sampling works near Ainsworth. A. W. McCune and H. Giegerich are both elated at their prospects, and will return from Montana to Ainsworth in a couple of weeks. Taking it all in all, the outlook for the Kootenay Lake country was never brighter.

Last fall the railroad company, the railway contractors, and the people of Nelson agreed to bear the additional expense of a weekly service, the mails to be carried once a week between Ainsworth and Marcus, Washington. The late Joe Wilson was the contractor. His estate carried out the contract faithfully; but have the people who were benefitted by the mail service kept their promises faithfully? The Wilson estate is out of pocket over $500, not because the contract was undertaken at too low a price, but because business men have either not paid their subscriptions or repudiated them altogether. The Canadian Pacific and the railway contractors agreed to pay $300, of which only $150 has been paid—$100 by D. McGillivray and $50 by a railway company that has received in the way of cash and land bonuses a sum equal to the cost of the road built. Of course, these people should not have been asked or required to contribute a dollar for adequate mail service, a service they were entitled to; but as long as Mr. Fletcher is post office inspector, and the district represented at Ottawa by men like Mr. Mara of Kamloops, adequate mail service need not be expected, and the people should keep faith with contractors who keep faith with them.

After a run of 80 hours, in which 16 tons of ore were crushed, a cleanup was made at the Whitewater mill on Rover Creek. The cleanup indicates that the mill will turn out gold bullion to the value of $5000 a month, to say nothing of the gold in the concentrates. This sum will more than pay all expenses incident to developing the mine so that a 20-stamp mill and other machinery can be placed on the property. There is enough ore in sight to run the Hunter-ton mill now on the ground two years or longer.

The delay in starting work at the Poorman mine and mill on Eagle creek is occasioned by the Husseys being unable to get their affairs in shape. It was hoped that by the sale of the Morning mine matters would have been straightened out before this. A. L. Davenport is now at Spokane, and on his return next week it is expected that operations will be resumed at the Poorman.

The price of Nelson dirt remains stiff at figures that range as high as $65 a front foot. H. Selous sold 50 feet on West Baker street for $3000 cash, a Victoria capitalist being the purchaser, and a 50-foot corner on East Baker street for $1575. W. C. McLean and John Lane purchased two building conditions in block 14 for $508—dirt cheap. Other sales were made but at figures not reported.

Some as fine specimens of native silver as have been discovered in the Lake country come from the recent discoveries on Rover Creek. The owners of the claim from which the specimens are taken say it is looking good, and that before fall they will have a proposition for a mining man to take hold of.

Mat Garrity, who has a claim on 49 Creek, a short distance above where the government trail crosses the creek, was in town to-day for the first time in a month. He reports having a tunnel in 42 feet, with a good showing for a silver mine. Mat's statements are at times a little extravagant, but he assures us that the above information is not in any way exaggerated.

In the fall of 1889 an expert sent in by a Portland company that H. B. Wright had organized to purchase and work claims in Hot Springs district reported adversely on the main claim the company intended buying. Considerable development work had been done on the ground, part of which was a 400-foot tunnel. Somehow, the ledge did not appear in the face of the tunnel when work was suspended, and when followed from the surface by inclines the edge was badly shook up and apparently never in place. After that expert's report the claim relapsed to its original owners, who worked it off and on until July of last year, when it was purchased by L. R. C. Boyle, president of the Revelstoke smelter syndicate. Men were at once placed at work; but at times the reports were not over encouraging to the owner. An upraise from the main tunnel drained the upper workings, and most of the work done afterwards was in trying to keep with the ore, the result being that 3000 sacks of high-grade are now in the ore-house awaiting the completion of the wagon road and a 7-foot ledge in place, with solid ore from foot-wall to hanging-wall. The ore is equally as good as any found nearer the surface, much of it showing native and wire silver. The ledge has now the right pitch, and if that tunnel had been extended a few feet further, G. B. Wright would now be the leading mining man in Hot Springs district. Such is luck. This strike in the Number One, along with the 9-foot strike in the lower level of the Fourth, has caused no little excitement among the boys in Hot Springs district.

Our Toilet Soaps are not surpassed in quality or odor.

SOCIETY IN WASHINGTON.

The Secret of Social Success at the United States Capital.

The material for a salon very possibly exists in Washington, says Harper's Bazar, but the most of it is a little raw and unhusked. The average Congressman is not going to worry himself into a dress suit, and go to some clever woman's house merely to talk, to discuss public questions, and say bright things. He prefers to do that at the Capitol, and have it printed in the Record, or pour it into the interviewer's ear, and have it spread broadcast through his district. His ideas of sociability include a bounteous hospitality, and are inseparably associated with bodily food. A thin water with a glass of gooseberry syrup and water will not satisfy, stimulate, nor adequately reward his expectations, founded upon even a verbal invitation. He appreciates terrapin and champagne, and getting them, seeks for the ulterior motive. "I've been asked to dinner twice this session by Smith. What do you suppose he wants?" queried a perturbed Congressman. And this is the all too usual view taken of even the simplest and most friendly hospitalities extended for good-fellowship's sake.

The family of a certain high official of means came to Washington intent upon setting an example of Spartan simplicity and frugal elegance in the way of entertainments. They sent out engraved cards a fortnight beforehand, and the heated and crowded guests were regaled with a vision of a young lady, a teapot and a plate of wafers when they reached the dining-room. Society naturally criticised, and a blunt old soldier wished that the money paid the engraver had been spent on a caterer, and that an informal entertainment had not succeeded a formal invitation. A shrewd, rich and illiterate woman who came to Washington determined to get into society, looked the field over for a season, and said: "I know how to do it. Feed 'em!" And she did, and conquered and rose to that ultra circle which affects to scorn officials and politicians, and hangs upon the diplomatic corps. The secret of such a social success lies solely in the pocket-book, the salad-bowl and the punch-bowl, and is attained by any one who will judiciously distribute their contents. Such circles are the antipodes of a salon, but it is one of the mass of such material that a salon must choose its recruits, and people more or less affected by such social standards and surroundings must be educated and raised to a higher level. Because of this general vulgarity, a salon is all the more needed as a place of refuge for public men and clever people with trained and refined social tastes.

THE BOY MICHAEL ANGELO.

First Work of the Great Artist—How He Received a Suggestion.

One afternoon the Duke Lorenzo de Medici in walking through the garden came upon young Michael Angelo, who was busy chiseling his first piece of sculpture, says Alexander Black in St. Nicholas. The Duke saw in the stone the face of a faun, which the boy was copying from an antique mask, but which, with his usual impatience of imitation he was changing so as to show the open lips and teeth. "How is it," said the Duke, drawing closer, "that you have given your faun a complete set of teeth? Don't you know that such an old fellow was sure to have lost some of them?" Michael Angelo at once saw the justice of the criticism. Artists are not always ready to receive adverse comment. Michael Angelo himself was quick tempered and hard to move. A hot word to one of his boy companions on a certain occasion brought so severe a blow in the face that all truthful portraits of Michael Angelo have since had to show him with a broken nose. But the Duke's criticism was kindly given, and was plainly warranted, and the young sculptor could hardly wait until the Duke walked on before beginning the correction. When the Duke saw the faun's face again he found some of the teeth gone and the empty sockets skillfully chiseled out.

Delighted with this evidence of the lad's willingness to seize and act upon a suggestion, and impressed anew by his artistic skill, the Duke made inquiries, learned that Michael Angelo had borrowed stone and tools on his own account in his eagerness to begin sculpture (he was at first set at drawing from the statuary), and ended by sending for the boy's father. The result of the consultation was that the Duke took Michael Angelo under his own special patronage and protection, and was so well pleased after he had done it that no favor seemed too great to bestow upon the energetic young artist. Michael Angello, then only fifteen, not only received a key to the Garden of Sculpture, and an apartment in the Medici palace itself, but had a place at the Duke's table. In fact, a real attachment grew up between Michael Angelo and the Duke, who frequently called the boy to his own rooms, when he would open a cabinet of gems and intaglios, seek his young visitor's opinions, and enter into long and confidential talks.

Canine Intelligence.

One of the intelligent dogs lives in Bar Harbor, Me., says the Kennebec Journal. He was carrying a paper the other day, when several canine companions began to bother him. He put the paper down on the ground and when a dog attempted to touch it sprang on him and gave him a good shaking. These tactics he repeated several times, till at last he could not get any dog to touch the paper, and then he quickly picked it up and walked away.

Wholesale Hanging.

It is not generally known that Henry VIII. hanged no fewer than 72,000 robbers, thieves and vagabonds, and that "Good Queen Bess," doubtless affected by her royal father's ferocious example, was in the latter part of her reign responsible for the slaughter of 300 or 400 criminals yearly. Turning to the year 1596, for example, we find that in the county of Somerset alone 40 persons were executed, 35 burned in the hand and 74 severely whipped.

Parnell Did Not Pay.

LONDON, July 17.—In connection with the statement yesterday made in Dublin that Parnell had paid the costs of the O'Shea divorce suit, Captain O'Shea's solicitors to-day write that such is not the case. They say that Parnell offered to pay one-half of the costs in May last and the balance within one month thereafter. This proposition, the solicitors say, was accepted by Capt. O'Shea, but nothing has been heard by Capt O'Shea or themselves from Parnell since. The solicitors declare they have experienced the greatest difficulty in serving bankruptcy order on Parnell who is moving to have the court set aside the service on the ground that he is not domiciled in England.

Mothers!

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhœa and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mothers' friend. 35 doses, 35 cents.

Acknowledged Her Guilt.

CINCINNATI, O., July 16.—Josephine Moehrho, the 17-year old girl, who was arrested with her father on Sunday last on suspicion of arson in having set fire to the premises in which they lived in Williamsburgh, made a confession to the fire marshal yesterday in which she acknowledged herself guilty.

Dyspepsia

Intense Suffering for 8 years—Restored to Perfect Health.

Few people have suffered more severely from dyspepsia than Mr. E. A. McMahon, a well known grocer of Staunton, Va. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 162 pounds, suffering burning sensations in the stomach, palpitation of the heart, nausea, and indigestion. I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Hood's Sarsaparilla, as it had cured his wife of dyspepsia. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became easier, nausea disappeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

Intense Suffering 8 Years

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy any other.

IMPORTANT NOTICE.

TO OUR PATRONS—The Victoria Electric Company purpose immediately entering upon an extension of their works by the erection of a new and commodious plant house and plant of large capacity, capable of accommodating the ever-increasing demand.

The new station will be located on Constance street, where, aided by superior facilities for the production of Light, Power, etc., combined with large output, they will be able to offer even better service, at a very materially reduced cost to consumers.

Pending the completion of these works, every effort will be made to continue the past reliable service, and to deal with patrons fairly. Any believing, however, that they have a grievance are invited to have the difficulty adjusted by presentation to the under signed. LOUIS HELDON, President.

AUCTION

IMPORTANT LAND SALE.

Victoria Arm, Prospect Lake,

AND COMOX DISTRICT.

MONDAY, 27TH JULY, AT 11 A.M.

I have been instructed to sell at my salesrooms, Fort and Langley streets, Victoria:

VICTORIA ARM.

Ten one-acre blocks of land, situated between Victoria Arm and Colquitz River, all fronting on a 66-foot road that extends from the Arm Road to the river. Also a four-acre block on the east side of the Colquitz, one corner of which touches on the Burnside Road. This land lies between the properties of Messrs. Austin and Adams. All this property is on a gentle slope and nearly all clear. The soil is first rate. These blocks are most desirable residential properties, and the neighborhood is considered one of the prettiest spots in the suburbs of Victoria City, and is destined in a short period to be very valuable. It is well sheltered from the cold winds.

PROSPECT LAKE.

Sections 132 and 133, containing about 95 acres each. The latter section has considerable frontage on the lake and about 30 acres of good land is cleared and fenced. There is a good road to this property. About 30 acres more can be easily cleared. The first section has considerable good land that can be easily cleared. The property is about six miles from Victoria. There are no Black Tail Deer or Ptarmigan on it, but lots of other game and lake front. Either piece would make a most pleasant and desirable home.

COMOX DISTRICT.

Section 2—Containing 103 acres, fronting on the Comox River, close to the Courtney Town site, and three miles from the Comox wharf. This property was formerly owned by A. M. Stenhouse, ex-M.P.P.

Section 6—Newcastle District, containing 151 acres, fronting on Deep Bay. About 20 acres of this land has been cleared and cultivated. There is also a four-room house, barn and improvements. It lies about 10 miles south from the Union Mine wharf, and the Nanaimo road runs through it; also a good running stream.

Section 12—Containing 138 acres. Adjoining Section 6, and fronting on Deep Bay. Both these sections were formerly occupied by W. H. Grove.

Section 79—Comox District, containing 167 acres. About 30 acres have been cleared, and cabin and barn erected. It has a good stream of running water; is on a good road; about five miles from Comox wharf. This is good, level land and soil; a large portion is alder bottom. Was formerly owned by Joe Rodello.

Section 119—Comox District. One hundred acres fronting on Comox River. This section adjoins 79. All flat river bottom land. A good deal of this land is alder bottom. This is one of the finest fishing frontages on the river.

TERMS OF SALE—25 per cent. cash; the balance in equal payments in one and two years, with interest at 6 per cent. per annum.

COAL

The New Vancouver Coal Mining & Land Co., L'd.

(FORMERLY THE VANCOUVER COAL CO.),

ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.

THE NANAIMO COAL (Used principally for Gas and Domestic Purposes).

THE SOUTH FIELD COAL (Steam Fuel).

THE NEW WELLINGTON COAL (House and Steam Coal) are mined by this Company only.

THE "NANAIMO" COAL gives a large percentage of Gas, a high Illuminating Power, unequalled by any other bituminous Gas Coal in the world, and a superior quality of Coke.

THE "SOUTH FIELD" COAL is now used by all the Leading Steamship Lines on the Pacific.

THE "NEW WELLINGTON" COAL, which was introduced early in the present year, has already become a favorite fuel for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel in the market.

The several Mines of the Company are connected with their Wharves at Nanaimo and Departure Bay, where ships of the largest tonnage are loaded at all states of the tide. Special dispatch is given to Mail and Ocean steamers.

SPORTING INTELLIGENCE

Matters of Interest Going Forward in the Sporting World, Here and Elsewhere.

LACROSSE.

Vancouver will fight the protests of New Westminster against Scurry, should those protests be pushed.

The Victoria Lacrosse Club held a meeting last evening, President Macgurn in the chair. There was a satisfactory attendance, and considerable interest evinced. The secretary submitted the reports of the committees on the schedule match played at New Westminster on the 20th June, the junior match played at Vancouver on July 1st, and the exhibition game played at Whatcom on the 4th. These reports were received and adopted.

The treasurer had the duty of presenting a satisfactory financial statement.

The constitution and by-laws as revised and extended by the committee appointed for that purpose, were adopted. This makes the membership fee for gentlemen $3, for playing members under 18 years $1.50, and ladies $1, entitling the holders of such tickets to all the privileges of membership.

Hereafter the management of the club, under the constitution, will be in the hands of the executive committee, which consists of C. B. Lockhart, W. H. Clarke, D. W. Morrow, D. Spencer, jr., Geo. Tite, W. A. Sprinkling, and the president and officers of the club. This arrangement will enable the club to conduct its affairs with much greater facility and despatch.

It was also decided to hold both an annual and semi-annual meeting, the former to take place in the third week in March, and the latter the first week in November.

The committee on grounds reported that they had made arrangements with the committee of the Caledonian Society for the use of the Caledonian grounds, and that the application of the club to the city for the use of the sprinkler and roller had been granted. It is the intention of the committee to take immediate steps to prepare these grounds for the approaching schedule match on August 8th next.

The membership tickets which are a very neat affair, are printed and will admit holders to the grounds at all matches. It is intended to arrange for the admission of holders to the agricultural grounds on the day of the lacrosse match there.

It is to be hoped now that the club shows a working spirit that the public will support it by making early application for tickets. The amount which aggregates largely to the club is but small to the individual interested in lacrosse.

BASEBALL.

The following are the nines selected from the Victoria Athletic Club to contest to-morrow's game:
